NOTES TO THIS REPORT:

¹ Benchmark group is Plano, Allen, McKinney, Carrollton, and Richardson. Data source is the Texas State Library & Archives Commission. This report reflects updated benchmarks based on newly available data from the Texas State Library.

Aggregate data is not provided since only benchmark ratios are comparative.

² This data is not available from Texas State Library records at this time. Efforts are underway to collect directly from the benchmark group libraries.

³ The Library continues to experience record usage levels. These usage levels reflect our current trend of growth plus the higher usage that normally occurs in public libraries during economic slowdowns as more people take advantage of library services for job hunting and alternative entertainment and leisure opportunities.
